Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Examiner called Mr. Duft (applicant's representative) to further discuss applicant's concerns regarding the use of US Patent No. 6,886,162 to explain certain terminologies ("callback" and "generation counter") in the last Office Action. This interview summary is in response to Mr. Duft's telephone call to examiner's supervisor (Mr. John Breene). Mr. Duft left a message for Mr. Breene that the introduction of US Patent 6,886,162 in the last Office Action mailed June 18, 2007 created a new matter and as a result, Mr. Duft thought it will be fair for the applicant to get a Non-Final Office Action. The examiner informed Mr. Duft that after a discussion of this concern between Mr. Breene and the examiner, it was decided that the last Office Action should be withdrawn and a new Office Action be subsequently issued.
